

Information Technology Solutions that Work for your Business

About Opticaltel

Based in South Florida and forged from an extensive line of successful entrepreneurs in the telecommunications industry, OpticalTel is rooted in a rich history of building and delivering Video, Internet and Voice services to residential and business customers. Today, OpticalTel is a fully integrated telecable company utilizing advanced fiber optic technology to deliver our quality services.

Our Strategic Data Center Location

The facility's downtown Miami location facilities diversity, redundancy and choice. Miami continues to be a major center of commerce, finance, and corporate headquarters as well as the Gateway to Latin America. Miami's telecommunications infrastructure is further improved by multiple fiber loops, carrier facilities and international cable landings. The hosting facility was specifically engineered to offer high performance, high availability and scalability to enhance your mission-critical requirements.
